

# SCHOOL GOVERNOR INTRODUCTION

## Clare Lo - Parent Governor

My family and I are new to Hollinswood and the UK, after arriving from Hong Kong in July 2021. We spent 10 months living in Scotland and then moved to Hollinswood in May 2022. Since my children joined the school, I have found the school very welcoming and helpful in supporting my children to settle into the school. Both my children love the school and the school community. I think that it is one of the things that makes Hollinswood special; the school plays an active part of the wider community, and it has its own community within, which my children instantly felt part of.

I had no previous experience as a governor but I am looking forward to the challenge of my own development and learning from any training courses that can be provided to support me in this role. I speak Cantonese, English and a little Mandarin and believe this could be of use to the school with its diverse community.

As a Parent Governor, I would like to learn more about the school, the challenges it faces, provide feedback through monitoring and evaluation when required, and have the opportunity to make a difference in the education of not just my children but to the school as a whole.
