Notes on Collective Worship:

Collective worship is about a school's duty to develop pupils spiritually, morally, socially and culturally. This may include learning about interesting cultural traditions and their meaning, listening to stories with a moral message and reflecting on themes such as strength, courage or loyalty. Collective worship should draw pupils' attention to the values the school wishes to develop both as a body and in each individual. Collective worship is about the growth of the person, their character and social outlook, whatever their academic aptitudes.
