

SCHOOL GOVERNOR INTRODUCTION

Peter Timson—Parent Governor

My name is Peter Timson. Me and my family moved to Telford in 2022. Me and my wife have two children with the eldest having started at the school in September 2024 and a second a couple of years behind. In terms of work, since graduating in 2001 I have worked as a Civil Engineer delivering highway related infrastructure projects for local authorities as well as National Highways and HS2.

I believe that the experience children have at school is vital in laying the foundation for their future, both with regards the education they get at school and the extra-curricular opportunities and experiences that schools can provide. I have been very impressed with the community that the school has created and am keen, in my first role as a Parent Governor to contribute to its continued success.
