

## **Applying for a mobile data increase**

The government has set up a scheme to support pupils with remote learning during the pandemic. If you believe that your family meets the criteria below, please get in touch and we can apply on your behalf for a mobile data increase to support your children.

Schools, trusts and local authorities can request mobile data increases for children and young people who:

- do not have fixed broadband at home
- cannot afford additional data for their devices
- are experiencing disruption to their face-to-face education

For each request, we need to know:

- the name of the account holder
- the number of the mobile device
- the mobile network of that device

Children with access to a mobile phone on one of the following networks might be able to benefit:

- Three
- Smarty
- Virgin Mobile
- EE
- Tesco Mobile
- Sky Mobile
- O2

If you think you qualify for this support, please message your child's class teacher.
